

CITY OF
CORONA
THE CIRCLE CITY

The California Avenue Sewer Pipeline Project will provide additional flow capacity to carry sewage from new development and the planned decommissioning of the City's Water Reclamation Facility #3 (WRF3).

California Avenue Sewer Pipeline Project

TEMPORARY ROAD CLOSURE COMING SOON

Nighttime construction along California Avenue south of Old Temescal Road to Ontario Avenue to install the new gravity sewer line will commence on March 11, 2019. The sewer construction work is being switched to nighttime hours to minimize impacts to businesses and to improve safety for the public and the construction workers where conflicts with existing utilities and deep trenches make construction challenging. At least one entrance to Sam's Club and Home Depot will be available for flagger- controlled traffic to access this shopping center from California Avenue.

Compton Avenue will not be impacted and offers direct access to this shopping center. Detours around the work area in California Avenue are shown below. The detours include Rimpau Avenue or Compton Avenue connecting to Old Temescal Road and California Avenue north of the work area. **A short section of California Avenue south of Carbide Drive to the signal north of Ontario Avenue will be closed to through traffic during this time with a detours provided on Rimpau Avenue and Compton Avenue.**

Alternate access to driveways and businesses including Sam's Club and Home Depot will remain open during construction. Delays may occur along California Avenue and nearby streets due to this construction.

Please note:

Due to inclement weather or unforeseen issues, these dates and times are subject to change without notice.

Please be advised, traffic delays are to be expected. Plan accordingly by taking alternate routes and/or allowing more travel time for known traffic delays.

The City of Corona appreciates your patience and support while these important improvements are made to the water and wastewater system. We apologize for the temporary inconvenience.

CITY OF CORONA THE CIRCLE CITY

What You Can Expect

Please expect lane closures, detours, delays and parking restrictions near the work sites during construction activity. California Avenue will be closed to through traffic during nighttime construction. Permanent traffic control devices including K-rails will remain at key locations while other temporary traffic control will be removed daily prior to morning traffic to minimize congestion. Construction equipment may be parked along the project alignment during non-working hours with traffic control devices provided to guide traffic around the work area. Mail, trash and delivery services are expected to continue unhindered. Local and emergency access will be maintained at all times. Lighting will be required for nighttime work and noise is to be expected from construction activities.
